## 1.0 Introduction

### Purpose

This Strategic Plan (Plan) exists to empower the Twain Harte Community Services District (District) to accomplish its mission by providing vision and specific objectives for the next two to three years.

The Plan was formed in January 2014 by the District's Board of Directors and staff with the understanding that it is a living document that will be reviewed regularly and revised as needed to better serve the District and the Twain Harte community. The Plan was purposefully fashioned as a succinct, workable document so that it can be easily used to:

- Measure District success
- Generate focused work plans
- Adopt comprehensive, goal-oriented budgets
- Communicate District values and direction to the community

### History

The Twain Harte Community Services District was formed on August 1, 1996, to provide water, sewer, park and recreation, fire protection, and hydroelectric services to the Twain Harte community. Its formation resulted in the consolidation of three districts whose service to the community dates as far back as 1935 – Twain Harte Fire Protection District, Tuolumne County Water District No. 1 and Twain Harte Recreation and Park District.

### Services

The District currently provides services to 1,572 customers made up of 1,486 residential customers, 75 commercial customers and 11 public entities. It is governed by an elected five-member Board of Directors and is operated by a twelve member staff. The District's annual revenue is approximately \$3,000,000, comprised of water/sewer rates and charges, property taxes and special assessments.

The District's services are generally described as follows:

- **Water:** The District provides treated water to all of its customers. Raw water stored in Lyons Reservoir is transported to the District via an open ditch system and is purchased from the Tuolumne Utilities District. The water is treated at the District's water treatment plant (one million gallons per day capacity), pumped through two pump stations, distributed through approximately 27 miles of pipeline and stored in six storage tanks (totaling 2.5 million gallons of storage). The District also owns and operates a groundwater well capable of producing 52 gallons per minute and Shadybrook Reservoir, which serves as an emergency water supply source.

- **Sewer:** The District owns and operates a wastewater collection system consisting of approximately 25 miles of sewer mains. All wastewater collected by the District is conveyed to Tuolumne Utilities District for treatment. The Sherwood Forest subdivision is the only area within the District that utilizes individual septic systems to treat wastewater.

- **Fire Protection:** The District provides fire protection and rescue services to the District and the greater Twain Harte area through mutual aid contracts with nearby cooperating fire agencies. With full-time staffing, three engines and a centrally located fire station, the District is able to provide emergency response in less than five minutes.

- **Park and Recreation:** The District operates and maintains several facilities to serve the communities' recreation needs – tennis courts, baseball field, skateboard park, playground, outdoor stage, walking trail and Community Center building.

- **Hydroelectric:** The District owns a 27-kilowatt hydroelectric generator located at

Shadybrook Reservoir. The generator is not currently used due to lack of water.

## 2.0 Mission, Vision, Values

### Mission

To provide quality and efficient services to our community in a professional, reliable and fiscally responsible manner.

### Vision

To be recognized at the local, regional and state levels as leaders in providing excellent water, sewer, recreation and fire protection services through sustainable future planning, superior customer service and strong community involvement.

### Values

We value and strive for excellence in:

*Integrity & Transparency*

*Fiscal Responsibility*

*Reliability & Sustainability*

*Customer Relations*

*Asset & Resource Management*

*Community Involvement*

*Collaborative Relationships*

*A Safe & Positive Work Environment*

*Professional, Pro-Active & Innovative Leadership*

### 3.0 Goals & Objectives

Building on its mission, vision and values, the District identified five strategic focus areas:

## 4.0 Plan Review, Revisions & Reporting

The District will review this Plan at least once annually to ensure that the Plan continues to be accurate and best serve the needs of the District. Plan revisions may be made at any time. All revisions must be approved by the Board of Directors. A record of revisions will be kept on the Table of Contents page.

At the end of each fiscal year, the General Manager will prepare a brief report for the Board of Directors summarizing the progress that has been made toward attaining the District's goals and objectives. Reports will be included in the Appendix of this Plan.

## APPENDIX A: Progress Reports

A brief description of the District’s annual accomplishments is listed below each objective.

*NOTE: Fiscal Year 2014-15 includes some accomplishments from Fiscal Year 2013-14 since some objectives directly relate to actions taken before final adoption of this Strategic Plan.*
