

CHAPTER 1 GOALS

The mission statement of the Twain Harte Community Services District is, "to responsibly manage District resources in order to provide our community with reliable, high quality water, wastewater and other utility services."

The objective of the Twain Harte Community Services District's sewer collections department is to operate and maintain the sewer collection system in a manner that minimizes back-ups and subsequent overflows. Included in that goal is the identification of existing or potential problem areas that may result in sanitary sewer overflows (SSOs).

The goals of developing and implementing this Sewer System Management Plan (SSMP) are the following:

1. Maintain or improve the condition of the collection system infrastructure in order to provide reliable service now and into the future.
2. Cost-effectively minimize infiltration/inflow (I/I) and provide adequate sewer capacity to accommodate design storm flows.
3. Minimize the number and impact of sanitary sewer overflows (SSOs) that occur.
